

Annual Monitoring Report 2008-09

Housing trajectory & five year housing land supply 2010-2015

ADDENDUM 28th JANUARY 2010

An error has been found in Figure 9 – Housing Trajectory for MSDC as at 1st April 2009 with the projected completion rate on sites identified through the Strategic Housing Land Availability Assessment. This amendment has subsequently slightly improved the ‘forward look’ five-year housing land supply situation as at 1st April 2010 from 4.1 to 4.2 years with the supply shortfall decreasing to 798 from 867 dwellings.

Changes have been made to the Report to paragraph 5.18 and Figures 8,9,10 and 11.

Corrections are in the form of tracked changes for paragraph 5.18 and Figure 11. Figures 8,9 and 10 have been replaced.
